

Unexpected Wildlife Refuge, Inc.

P.O. Box 765, Newfield, New Jersey 08344-0765 U.S.A.

Phone: 856.697.3541 • Web site: <http://unexpectedwildliferefuge.org/>

Information concerning your visit to our Refuge

Unexpected Wildlife Refuge does not have captive animals nor does it utilize methods to mitigate wild animals, whether invertebrates (arachnids, such as chiggers, spiders and ticks, or insects, such as mosquitoes and wasps, and other species) or vertebrates, and any risks posed by these free-living animals are borne by you. In particular, Unexpected Wildlife Refuge cannot in any way control or prevent you from being bitten, stung or otherwise harmed by free-living animals, including the contraction of any diseases transmitted by same. Further, walking through the land incurs further risks from tripping, falling, walking into or otherwise being harmed by inanimate structures and plants. Contact with plants such as, but not limited to, poison ivy may additionally cause contact dermatitis beyond the ability of the Refuge to control.

The Refuge depends on public support for its survival. We extend to everyone the privilege of observing the wonderful habitat and rich fauna and flora here. We encourage people to take photographs and video footage, to make sketches or paintings and to write stories about what they have seen or experienced at the Refuge. All we ask in return is that you share this information with us so that we can use it to promote the Refuge to others. We will, of course, give you credit for anything we might use and hope that you will reciprocate by giving the Refuge appropriate credit wherever you may use this information. Together we can help ensure sanctuary for wildlife in this haven.
